My
Maximo

... with any number of extras that you're sure to love!

Maximo is easy to adjust to suit any size, perfectly.

Now even better for your child!

Ergonomically shaped upholstery. Washable covers that can be changed.

Maximum back support thanks to the oscillating backrest.

No need to sit still: the seat has buffers to provide sitting dynamics and comfort.

Rugged and safe: Maximo can cope with a load of up to 80 kg.

The universal castors are suitable for hard and soft floors. Glides are available as an accessory.

Grows perfectly with the child!

Only from moll: Maximo starts small, and then spends many years growing with the user.

Seat height, seat depth and backrest height are easy to adjust. To make sure your child is always sitting ergonomically.

Height adjustability 28 - 54 cm for height approx. 110 - 195 cm

TurnStop secures the swivel base to keep your child safe and secure.

Cool or fresh?

Now there are even more design options for Maximo: choose your favourite from 18 covers, either plain or with a cool motif. There are also 2 different frame colours.

Cap or handle?

Now there's also a small cap to cover the Maximo column. And the Maximo handle that you use to pull the chair along. You can change over to whatever you like.

Psst!

There's a secret compartment under the seat where you can hide your favourite things. Don't tell anyone!
